POETRY ON BAGUIO. Pasig: Metro Manila:

The author explores " ... the past, present and the  
future of Baguio ..." through poetry. The poems  
should interest anyone who has lived in or  
visited the mile-high city, which continues to  
evolve into something the original settlers could  
not have imagined. "Woman from the North" is a  
personal favorite.

**NOTE:** *There is a wealth of materials published on the Cordillera, much of which is out of print. William Henry Scott alone has written more than ten books on the subject.*

*Most of the titles listed as out of print in the bibliography are available in our private collection and can be perused by making an appointment. The Asia Collection at the University of Hawaii at Manoa's Hamilton Library is well worth a visit. Most of Scott's works are available there as well as the other titles listed in the Bibliography.*
